

Facial Rejuvenation

Chromaclear Phototherapy Microderm Percussion

From Gorgeous, East Anglia's leading health, wellbeing and beauty therapy centre continues to invest in ensuring that you have access to the very latest in effective cosmetic treatments.

This leading edge technology combines with the skills and training of our experienced therapists to reduce the appearance of stretch marks, blemishes, pigmentation disorders, scar tissue and fine lines. Perhaps you just want to look younger?

Chromaclear resurfaces problem areas using the microdermabrasion technique as featured in leading TV programmes and magazines.

Combining this with red and blue photolight therapy leaves skin rejuvenated and clear. For more information call our therapy team on
